Permit Application Instructions

The Village of Oriskany has adopted the New York State Uniform Fire Prevention and Building Code (Uniform Code) and the Village of Oriskany Zoning Law (Zoning Law). This Officer is responsible for enforcing the Uniform Code and the Zoning Law. Copies of the Uniform Code may be obtained on the Internet at www.iccsafe.org, phone 1-800-786-4452, www.dos.ny.gov/dcea/ or phone (518) 474-4073. Copies of the Zoning Law may be obtained from the Village Clerk. Copies of a building permit and zoning permit applications may be obtained from the Village Clerk or online www.villageoforiskany.org.

A ZONING, BUILDING OR DEMOLITATION PERMIT IS REQUIRED for the erection, construction, enlargement, alteration, improvement, relocation, removal or demolition of any building, structure or waste treatment system and installing heating equipment and wood burning devices. A permit is also required for the change of occupancy of any structure or building. A permit is not required for the performance of necessary repairs that do not affect structural elements, plumbing, electrical or heating/ventilation systems. Such work shall nevertheless be done in conformance with the Uniform Code and Zoning Laws.

If required, please complete the attached permit application. A permit will be issued when it is determined that the application is complete and the proposed work conforms to the Uniform Code, Zoning Code and all other codes, rules and regulations. You may contact me at the above address or my home phone if you have any questions.

1. Three sets of plans, drawings and specifications relating to the construction or alteration of buildings or structures must accompany the permit application. The plans, drawings and specifications must be stamped with the seal of a licensed, registered architect or professional engineer and signed. Farm buildings, single-family residential buildings fifteen hundred square feet or less and alterations costing \$10,000.00 or less may not require a stamp and signature. If alterations involve the structural safety or public safety of the building or structure a stamp and signature is required.
 2. The applicant may request that the requirement of plans, drawings and specifications be waived where the work to be done involves minor alterations or where such plans, drawing and specifications are otherwise unnecessary.
 3. The applicant must submit proof that the required workers compensation and disability coverage and liability insurance has been obtained.
 4. A permit will be issued when the application has been determined to be complete and when the proposed work is determined to conform to the requirements of the Uniform Code and Zoning Law. The authority conferred by such permit may be limited by conditions, if any, contained therein.
 5. The applicant shall notify this office of any changes in the information contained in the application during the period for which the permit is issued.
 6. The permit issued shall be prominently displayed on the property or premises to which it pertains.
 7. The permit issued may be suspended or revoked if it is determined that the work to which it pertains is not proceeding in conformance with the Uniform Code, Zoning Law or with any condition attached to such permit, or if there has been a misrepresentation or falsification of a material fact in connection with the application for the permit.
 8. Work for which a permit has been issued shall be inspected at appropriate stages of the project. Work shall be inspected prior to enclosing or covering any portion thereof and upon completion of each stage of construction or demolition, including but not limited to building location, site preparation, excavation, foundation, framing, superstructure, electrical, plumbing, heating, ventilation and air conditioning. It shall be the responsibility of the owner, applicant, or their agent to inform this office that the work is ready for inspection and to schedule such inspection.
 9. The project shall be subject to periodic inspections for compliance with the Uniform Code and Zoning Law.
 10. Any work on the project that is violation of the Uniform Code or Zoning Law shall stop until this office is satisfied that such violations have been corrected.

PERMIT APPLICATION**

11. Upon the completion of all work for which a permit has been issued, the property owner shall obtain a certificate of occupancy or completion. No building or structure described in this application shall be used or occupied, except to the extent provide in this permit, until a certificate of occupancy or completion has been issued.
12. A third party inspection may be required for work performed at this project. The inspector should be a registered architect, licensed engineer or other person whose experience and training has been demonstrated to the satisfaction to this office. Such inspector shall certify the results of his inspection to this office. The cost of the inspection and certification shall be the responsibility of the owner, applicant, or their agent.
13. All building permits shall expire one year from the date of issuance or upon the issuance of a certificate of occupancy or upon the issuance of completion, whichever occurs first. A building permit may, upon written request, be renewed for successive one-year periods.
14. All zoning permits shall expire one year from the date of issuance. A zoning permit may, upon written request, be renewed for successive one year periods.
15. Attached is a fee schedule for the required permit. Check or money order payable to Village Clerk, Village of Oriskany is the only acceptable form of payment.

I hereby certify that I have read and understand this application and know the same to be true and correct. All work shall be executed in strict compliance with the permit application, plans, drawings and specifications and the Uniform Code and Zoning Law. All provisions of laws and ordinances covering this type of work shall be complied with whether specified hereto or not. The granting of this permit does not presume to give authority to violate or cancel the provisions of any federal, state or local law or other rule or regulation regulating construction or land use or performance of construction.
